Canal Committee Delays Final Action by Deciding on 15 Days Hearing.

WASHINGTON, April 7 .- Senator Poindexter's resolution calling on the President to inform the Senate as to the real reasons for demanding the passage of the canal tolls repeal bill was put to sleep to-day. By a vote of \$5 to 27 it was referred to the Foreign Relations Committee. The reference means that it will not be heard from again.

The President's friends seized this vote as signifying that the repeal bill has a clear majority in the Schate. They were disposed to accept it as a test vote, though several Senators who voted for it are known to be opposed to the repeal bill, while one or two who voted against it are known to favor repeal.

Among the Senators who voted to refer were the following who are openly op posed to the repeal bill: Borah, Martine, Oliver, Page, Perkins, Thomas and Walsh. Senator Hitchcock of Nebraska, who voted against referring the resolution, is an advocate of repeal. If the known votes are taken into consideration the so-called test would be against the Wil-son Administration 29 to 33.

At best to-day's vote should be accepted merely as confirming the opinion that the issue is very close in the Senate and may be decided by one or two votes. It should be noted too that several Senators sat silent and failed to answer to their names, thus indicating that they do not care at this time to commit them-selves on any phase of the tolls question. Those voting to refer and in favor of

the Administration were as follows:
